Custom Artwork

ART PROCESSES AND PROCEDURES:

Pricing is based upon customer supplying camera-ready, color separated artwork. Each product supplier requires slightly different requirements for reproduction of your logo; please follow guidelines below for excellent reproduction.

IS YOUR ARTWORK CAMERA-READY?

"Camera-Ready Art" refers to black and white reproduction grade copy of type, logo and /or imprint, ready for reproduction without additional touch-up. If clean up is required on non camera-ready art there will be a flat fee of \$100.00(G).

Art should be supplied in Adobe Illustrator format (.EPS or .AI) on a computer file compatible with our PC system.

Scans, Faxes, photocopies, business cards and embroidered or imprinted items such as golf balls, hats and shirts, do not constitute camera-ready artwork. However, these items are good references for general logo information and colors.

EMBROIDERY

Customers must provide fully-digitized embroidery file for all embroidery orders. Art supplied should be in .DST format. We reserve the right to individually price each piece of artwork based on changes needed. If digitizing is required to set up a new logo, please supply good quality art for proper reproduction. Also include Pantone or thread colors relating to the logo. Digitizing charges will apply on new logo set ups.
